DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David G. Latwesen on 6/26/02. Applicant was advised that claims 1-40 were subject to a restriction requirement imposed by the Examiner, claims 20-28 being a separate Groups from claims 29-40. Applicant elected without traverse claims 29-40 and further consented to the canceling of non-elected claims 20-28 and reserved his right to file a divisional.

Cancel claims 20-28.

Allowable Subject Matter

Claims 41-47 are allowed.

The following is an examiner's statement of reasons for allowance:

In reference to claim 29, Yu et al ('085) teaches a method comprising:

Forming a gate oxide (Fig.2F (26)) over a semiconductive substrate (Fig.2F (20)),
the gate oxide layer comprising silicon dioxide (Col.5, lines: 55);

Exposing the gate oxide layer (Fig.2F (26)) to activated nitrogen species from a
nitrogen containing plasma to introduce nitrogen into the gate oxide layer and form a

nitrogen enriched region being in the upper half of the gate oxide layer (Fig.2F (28) see also Col.4, lines: 45-55);

Thermally annealing the nitrogen within the nitrogen enriched region to bond at least a majority of the nitrogen to silicon proximate the nitrogen (Col.4, lines: 45-55);

Forming at least one conductive layer over the gate oxide layer (Fig.2F (30)); and

Forming source/drain regions within the semiconductive substrate (Fig.2F (34, 36));

The source/drain regions being gatedly connected to one another by the conductive layer (Fig.2F).

However, Yu fails to teach applicant's narrow claim language that the gate oxide layer (Fig.2F (26)) having a nitrogen enriched region which is ONLY in the upper half of the gate oxide layer (Fig.2F (28)).

It would not have been obvious to one of ordinary skill in the art to modify Yu's teachings to include forming a nitrogen-enriched region only in the upper portion of the gate oxide because Yu explicitly teaches that "in reality, they [upper and lower nitrogen enriched regions] are overlapped in ultra thin oxides, and the overall gate oxide 16 is nitrogen enriched throughout." Consequently, Yu fails to teach that the upper enriched region is the ONLY enriched region as claimed by applicant. Therefore, applicant's claims are considered to be allowable over prior art.

Art Unit: 2813

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Notice of Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2002, 37 CFR 1.18 is proposed to be revised to change the patent issue fees as set forth below. As stated above, the final fees may be a different amount, and applicant should check the web site given above when paying the fee.

(a) Issue fee for issuing each original or reissue patent, except a design or plant patent:

By a small entity (Sec. 1.27(a))--\$655.00

By other than a small entity--\$1,310.00

(b) Issue fee for issuing a design patent:

By a small entity (Sec. 1.27(a))--\$235.00

By other than a small entity--\$470.00

(c) Issue fee for issuing a plant patent:

By a small entity (Sec. 1.27(a))--\$315.00

By other than a small entity--\$630.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.
